

CHINESE ZODIAC

What is the Chinese Zodiac?

The Chinese Zodiac assigns every year to a different animal.

There are 12 animals in total, so the zodiac cycle repeats every 12 years in the Chinese lunar calendar (which is based on the moon cycle).

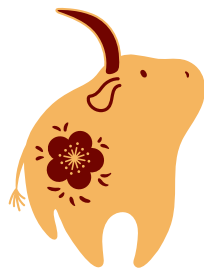

Some people believe that the zodiac of the year they are born in can represent their personality.

Take a look at the chart—
What's your zodiac sign?
Do you think it fits you?
